WELSH PONY & COB ASSOCIATION OF CA HOLDS ANNUAL MEETING IN STOCKTON

FEATURED SPEAKER, DALE MYLER, MYLER BITS USA

The Welsh Pony and Cob Association of CA would like to invite all equine enthusiasts to join us February 11, 2012 at the Stockton Hilton in Stockton (2323 Grand Canal Blvd.) for a presentation, "***Bitting For A Calm and Relaxed Mind***", by Dale Myler of Myler Bits USA. Since 2000, the Mylers' have been sharing their philosophy on biting horses and mules in the most precise and relaxed way. They have spoken to thousands of horsemen and horsewomen at seminars and clinics throughout the USA and Europe. With a power point presentation, Dale's presentation will show before and after pictures of horses in previous live clinics.

Dale Myler and his brothers are third generation horsemen, and are three of the world's leading bit designers. Because of Dale's extensive research into equine dentistry and equine physiology, the Myler's have been able to bring an added understanding of the connection between biting and the equine mouth to their designs.

This presentation, open to ALL who are interested in our equine friends, is an educational program involving the similarities between the human being and the horses we work. There are a lot of horses in the presentation, but it is not a commercial about Myler bits. This is about the anatomy and physiology of the mouth as it relates to bits. One needs to understand the anatomy of the horse's tongue, head & neck and how the front part of the animal's body relates to the movement of the whole body. Please come and join us to learn how this anatomy and physiology translates into a horse that is able to move freely and with more coordination when his tongue is free and soft, thus "*Bitting for a Calm & Relaxed Mind*".

Please come join us for lunch, to be served between 11:30a.m. and 12:30 p.m., with Dale Myler's presentation to begin at 1:00 p.m. The fee is \$25.00.

Registrations are required to accommodate all who will be attending.
